From the Open Site menu you can open all the existing web content stored on your handheld. In order to open a page simply tap on the name of the page. The last viewed page appears in black instead of white. To sort pages tap on the **Name** to either sort by name or date of the page. To reverse the order of the sort simply tap the **↓** in the upper right corner. The **(i)** button will display tips about how to better use the Open Site menu.
